This class will teach the information needed to obtain and entry-level Amateur Radio License. Amateur Radio is a form of two-way radio communication where licensed operators may communicate with other Amateur Radio operators both locally and around the world.

Amateur Radio is both a hobby as well as an emergency communications resource. Operators are often able to still communicate when other means fail, and have been valuable assets during many recent large-scale disasters.

The class will be held over the course of five weeks, and will meet Thursday nights starting March 1st, and ending on March 29th.

Class size is limited. For more information or to register, visit www.cowleycounty.org/em-news or contact the office by phone (620)221-0470, or email jstradal@cowleycounty.org.
